Kpp. IPB Baranangsiang 4 Kota Bogor, Bogor Utara, Tanah Baru, 16154

A dedicated Computer Engineering graduate with a strong grasp of diverse programming languages, frameworks, and technologies developed through coursework and a year-long engineering internship. I am passionate about pursuing a Quality Assurance role, I bring proficiency in Selenium, Robot Framework, and Appium, but also willing to learn new automation testing tools to expand my knowledge. I am able to write test cases and test scenarios by following the testing principles. Additionally, I possess a solid understanding of software testing concepts and methodologies. I am eager to apply my analytical skills and enthusiasm for ensuring product excellence and contributing to delivering high-quality solutions in a collaborative team environment.

Work Experiences

Pacmann - Jakarta, Indonesia   Mar 2023 - Sep 2023
Part-time Teaching Assistant Python

- Conduct regular tutoring sessions with 5 to 20 participants up to three times a week.
- Assist in live class sessions as an operator once or twice a week.
- Grade and provide feedback for project submissions.
- Moderating discord group of 180+ members.

BINUS University - Jakarta, Indonesia   Sep 2022 - Feb 2023
Engineering Specialist Internship

- Developed smart lamp product with speaker and humidifier function using ESP32, DFPlayer Mini MP3, and Humidifier.
- Developed a cartesian motion platform system to aid the development of a digital microscope
- Developed a led chaser game that helps increase visitor interest in visiting department booths at campus fairs.
- Developed trial classes, workshops, or extracurricular modules based on predetermined topics.
- Take in-house training provided like using a 3D printer, developing PCB, using heavy equipment, etc.

Pt. Boon Software - Jakarta, Indonesia   Feb 2022 - Aug 2022
It Support Internship

- Provided technical computer support, such as configuration, installation, and troubleshooting of application servers.
- Setting up Apache log rotation to rename an existing log file when it reaches a certain threshold which makes it easier for the IT team to manage the log files.
- Performed daily monitoring and maintenance of up to 16 client servers using remote applications.
- Diagnosed and troubleshooted networking issues.

Education Level

Universitas Bina Nusantara - Jakarta, Indonesia   Jul 2019 - Jul 2023
Bachelor Degree in Computer Engineering, 3.67/4.00

Organisational Experience

Himpunan Teknik Komputer Binus University - Jakarta, Indonesia   Feb 2021 - Feb 2022
Coordination staff of event division

- Performed operational management from proposal submission to event execution.
- Collaborate with media partners to support an event.
- Participate in an event called P2M (Pengabdian Pada Masyarakat) as a committee by creating an educational video.
- Hold an event called "CEAFO (2022): learn IoT through security improvement with ESP-32" as a person in charge.

Skill, Certificates & Other Experience

- **Programming Language**: C++, Python, Java, Javascript, HTML, CSS, and SQL
- **Library, Framework, and Technologies**: Selenium, Robot Framework, Appium, Vue.js, Node.js, Express.js, and Ubuntu
- **IELTS Preparation by ROYAL ENGLISH** ⊘: Has accomplished IELTS Preparation with the prediction overall band score is 7
- **Quality Assurance by MySkill** ⊘: Certificate of course completion
- **Belajar Membuat Aplikasi Back-End untuk Pemula by Dicoding** ⊘: Certificate of course completion
- **Belajar Dasar-Dasar DevOps by Dicoding** ⊘: Certificate of course completion
- **Belajar Jaringan Komputer untuk Pemula by Dicoding** ⊘: Certificate of course completion
