Kpp. IPB Baranangsiang 4 Kota Bogor, Bogor Utara, Tanah Baru, 16154

Passionate and curious Computer Engineering graduate, recognized as the Best Graduate in Computer Engineering for BINUS University's 68th graduation cohort. I have a strong foundation in software development, technical problem-solving, and instructional support. As a Teaching Assistant for Python class, I helped students understand technical concepts, improve their programming skills, and apply programming concepts to real-world problems. This experience strengthened my ability to explain complex topics and guide technical learning. Beyond teaching, I have experience in software engineering and IT support, where I built scalable solutions using Java, JavaScript, and web frameworks. Passionate about technology, I am eager to explore the IT field from developing high-quality applications and designing robust databases to applying data science for impactful insights. With a strong commitment to continuous learning and collaboration, I aim to deepen my understanding of IT systems, data-driven decision-making, and innovative technology solutions.

## Work Experiences

### PLN Icon Plus - Jakarta

Jan 2024 - Present

#### Junior Software Engineer

- Designed and developed efficient software solutions in collaboration with cross-functional teams.
- Successfully developed a website to help the government to efficiently distribute free rice cookers to priority groups.
- Built responsive web applications optimized for seamless performance across all devices and screen sizes.
- Identified and resolved software bugs, enhancing functionality and improving user experience.
- Maintained and updated software applications to ensure compatibility with evolving technologies.

### Pacmann - Jakarta, Indonesia

Mar 2023 - Sep 2023

#### Part-time Teaching Assistant Python

- Conducted regular tutoring sessions for 5–20 participants, up to three times per week, earning positive student feedback with an average rating of over 4 out of 5 stars.
- Assisted in live class sessions as a technical operator, ensuring smooth execution once or twice a week.
- Reviewed and graded project submissions, providing constructive feedback to enhance learning outcomes.
- Moderated a Discord community of 180+ members, fostering engagement and facilitating discussions.

### PT. Boon Software - Jakarta, Indonesia

Feb 2022 - Aug 2022

#### IT Support Internship

- Provided technical support for application servers, including configuration, installation, and troubleshooting.
- Implemented Apache log rotation to automate log file management, improving efficiency for the IT team.
- Monitored and maintained up to 16 client servers daily using remote management tools.
- Diagnosed and resolved networking issues, ensuring system stability and performance.

## Education Level

### Universitas Bina Nusantara - Jakarta, Indonesia

Jul 2019 - Aug 2023

#### Bachelor of Computer Engineering, 3.67/4.00

- Research Project: Design of Digital Signage System for Menu Display in Food and Beverage Industry.
- Honors: Recipient of the Best Graduate Award in Computer Engineering, Class of '68.

## Organisational Experience

### Himpunan Teknik Komputer Binus University - Jakarta, Indonesia

Feb 2021 - Feb 2022

#### Coordination staff of event division

- Participate in an event called P2M (Pengabdian Pada Masyarakat) as a committee by creating an educational video.
- Hold an event called "CEAFO: learn IoT through security improvement with ESP-32" as a person in charge.

## Skill, Certificates & Other Experience

- **Programming Language:** C++, Java, Python, JavaScript, HTML, CSS, and SQL.
- **Library, Framework, and Technologies:** Selenium, Cucumber, Robot Framework, React, Vue.js, Express.js, MySQL, and Linux.
- **IELTS** 🇬🇧: IELTS 6.5 (IDP), all bands 6+.
- **Best Graduate Certificate** 🏆: Recognized as the Best Graduate in Computer Engineering for the 68th graduating class.
- **Certificate of Excellence** 🏆: Received a Certificate of Excellence for an outstanding academic record and graduated cum laude.
- **Intro to Product Management Course by RevoU** 🇬🇧: Certificate of course completion.
